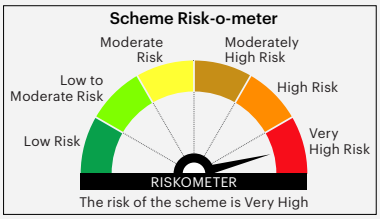
Invesco India Flexi Cap Fund

(An open ended dynamic equity scheme investing across large cap, mid cap, small cap stocks)

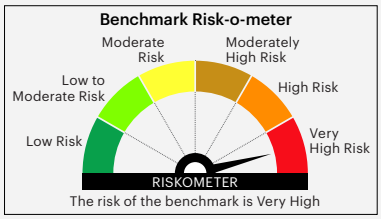
This product is suitable for investors who are seeking*:

- Capital appreciation over long-term
- Investments in a dynamic mix of equity and equity related instruments across largecap, midcap and small cap stocks

***Investors should consult their financial advisers if in doubt about whether the product is suitable for them.**



As per AMFI Tier 1 Benchmark i.e. **BSE 500 TRI**



Equity markets are often unpredictable – economic factors, government policies, global and domestic events can cause upward and downward movements across Large, Mid and Small caps.

What you need is a fund that offers **Expertise and Flexibility** - navigating through market movements with the aim to capture opportunities across market caps, and help you build long term wealth.

Presenting
Invesco India Flexi Cap Fund
a fund that responds to opportunities across Large, Mid and Small Caps

A fund which aims to identify winners across sectors and market cap based on relative attractiveness of investment opportunities.

Benefits of investing in Flexicap Funds

There are times when a mandated investment approach can make an active investment strategy a little constrained. In such situations, a flexicap strategy provides an edge and offers the following benefits:

Flexibility
Flexicap Funds pursue opportunities across the market cap range and sectors

Dynamic
Aims to capture stability of large cap and growth potential of mid & small cap with an option to dynamically change the allocation

Long term ownership
Facilitates longevity of stock ownership as the fund does not have to rebalance portfolio due to market cap changes

Diversification
Diversification helps to generate consistent outcomes over long term while lowering risk

Flexi Cap approach helps balance risk & returns
